EXPORT – We can export to most countries. Firearms including antique have to be exported via air freight. We have a freight forwarder who can organise this for you. An export license will need to be obtained. We charge a \$80 fee for our time in organising the export and packaging, The freight forwarder will charge you for the NZ export license and the freight for the firearm(s). This is usually charged forward and you will pay this on receiving your goods. The export process can take around 4-8 weeks. For an estimate of the export license and freight charges please contact us. NZ G.S.T (VAT/sales tax) is only on the commission / buyers premium portion of the items, because this service occurs in New Zealand this must be charged on exports. Items that are not firearms can be sent via NZ postal service and will be charged at that rate plus packaging. Some items with historical significance to New Zealand may not be able to be exported.
